

## OSHA 40 Hour Hazwoper Training Services Request for Quotes Questions & Answers

1. We will like more specifics on what are your requirements on the 10 hours of practical work? To ensure that our hands-on sessions meet your criteria.

The Hazardous Waste Operations and Emergency Response Standard guides' employers and employees on how to respond when engaged in clean-up operations at uncontrolled hazardous waste sites, treatment/storage/disposal sites, and emergency response sites. Therefore, the practical work should include out-of-seat activities that assist trainees to learn best practices in response. Practical work could also include activities done seated in the classroom, but which are interactive and require teamwork.

2. Will it be coordinated ahead of time if the class will be provided in English or Spanish for each cycle?

All classes will be in English.
